About Virtual Classrooms at Bilingual Teacher Exchange

BTE Virtual Classroom is a digital replica of a traditional classroom or training room. The instructors teach, and the participants learn in real-time, face-to-face but via internet-enabled technology devices. The classroom or the meeting room staple – whiteboard – remains intact. Brainstorming, ideation, and discussions happen in real-time. Tests are given and taken pre and post the session and reports are ready right after the session is over.

BTE Classrooms offer more flexibility over a traditional classroom and you can deliver the instruction to a geographically dispersed audience at one time. Both instructors and learners increase collaboration with other learners and instructors from around the world, and attendance is automatically tracked. Moreover, an online classroom typically incorporates more communication tools, such as chat, open discussion boards, polls, multimedia content and social media.

ADVANTAGES FOR SCHOOLS, STUDENTS, AND PARENTS

SCHOOLS

- **Live Interactive Online Classes Recorded for Replay:** Face to face teacher-student engagement with use of whiteboards that can be recorded for ongoing learning. Students can revisit sections that were unclear, or review the entire curriculum from time to time.
- **Financial Savings:** Virtual learning affords schools the ability to replicate success and create new curriculums that are also reusable from the platform. It also reduces cost of hiring onsite staff that may not allow for flexibility in learning and scheduling.
- **Pool of Certified Native Speaking Teachers:** We provide groups of trained and certified native speaking teachers for schools to select the best fit. If necessary, substitute teachers are available for all class times.
- **Choose Method of Delivery:** Classes can be conducted to a one group class via smartboards or via individual computers, tablets, smartphones, or other devices.
- **Flexible Scheduling of Classes and Testing:** Students may choose where and when they complete the course and testing. Schools can add or change material at any time.
- **Easy Tracking and Assessment:** In a virtual learning environment, it's easy to tell which students have completed the activities. Built-in assessments like quizzes can help you ensure they're absorbing the material.
- **Online Teacher-Principal Meetings:** Principals schedule meetings with instructors at any time.
- **Onsite Teaching Assistants:** An optional service provided by the host school or by BTE to enhance classroom management and additional projects.

STUDENTS

- **Live Interactive Online Classes:** Face to face teacher-students engage with use of dual way whiteboards, video, and other tools.
- **Never Miss A Class-all classes are recorded:** Students can revisit sections that were unclear, or review the entire class from time to time.
- **Choose Method of Delivery:** Classes can be conducted as a group class via smartboards or via individual computers, tablets, smartphones, or other devices.
- **Flexibility in Scheduling Classes and Testing:** Students may have the ability to choose where and when they complete the course. Testing is also completed online or onsite.
- **Increase Student Technological Learning:** Students increase learning in use of technology and adapt to the future of new learning platforms.
- **Onsite Teaching Assistants:** Provided as an option to enhance classroom management and additional projects (based on course and school).
- **Need Extra Help?** Tutors are available hourly to fit your schedule.

PARENTS

- **Online Parent-Teacher Meeting**
- **Tutors Support Students Learning Needs**
- **Easy Tracking and Assessment**

About Bilingual Teacher Exchange

Bilingual Teacher Exchange (BTE) is a one-stop recruitment and staffing source matching schools and bilingual teachers. We solve the problem schools face in recruiting US-based teachers or in accessing native speaking language teachers.

BTE Virtual Classrooms provide schools and students with an interactive online language learning platform to support, improve, and advance global learning classrooms.
